The Folly Road at Camp Road Intersection Improvements project aims to alleviate the traffic congestion at the intersection and improve traffic operations in this area.

The project involves improvements to Folly Road from approximately 1,000 feet south of Camp Road. From this area, construction will continue to the intersection of Eugene Gibbs Street and Rivers Point Row, and will include improvements to Camp Road from West Madison Avenue to Oyster Point Row.

When the Folly Road at Camp Road Intersection Improvements project has been completed, seven turn lanes, one dual-left turn lane, over 4,000 feet of bicycle lanes, over 7,000 feet of sidewalks, and over 7,000 feet of drainage pipe will have been added to this area.

**PROJECT GOALS:**

- Reduced traffic congestion
- Improved traffic operations
- Increased safety
- Improved pedestrian and bicycle mobility
- Alleviated stormwater impacts
The Folly Road at Camp Road Intersection Improvements project will consist of five phases of construction with the first phase taking place in March 2016, with a week of paving operations to restore Folly Road. Phase 2 will begin in April and will consist of construction to Camp Road and the east side of Folly Road.

**PROJECT TIME = 550 DAYS**

**1. FOLLY ROAD AND CAMP ROAD INTERSECTION:**

- Folly Road will be widened to provide an additional turn lane for the northbound traffic turning left from Folly Road onto Camp Road.
- A new dedicated right turn lane will be added on northbound Folly Road for traffic turning onto Camp Road.
- Camp Road will be widened to accept the additional left turn lane traffic from southbound Folly Road.
- An additional lane will be added to Camp Road westbound approaching Folly Road to provide dedicated lane for left turns, through traffic, and right turns.
- The new design of Camp Road includes slight curves to avoid trees; because of this, the speed limit on Camp Road will be reduced to 35 mph in the project area.
- The right lane will be added on both sides of Folly Road.
- Bicycle lanes will be added on both sides of Folly Road.
- Stoplight upgrades will be made at the intersections which includes pedestrian signals for improved crosswalks.

**2. EUGENE GIBBS STREET AND RIVERS POINT ROW INTERSECTION**

- Eugene Gibbs Street and Rivers Point Row will be realigned at Folly Road.
- A dedicated left-turn lane will be added on Eugene Gibbs Street turning towards downtown Charleston onto Folly Road.
- An additional lane will be added on Rivers Point Row westbound approaching Folly Road to provide dedicated lane for left turns, through traffic, and right turns.
- Stoplight upgrades will be made at the intersections which includes pedestrian signals for improved crosswalks.
WHAT SHOULD I EXPECT WITH CONSTRUCTION?

The project team acknowledges the effects that project construction may have on your day-to-day life. Our commitment is to keep you aware of potential impacts so you can plan your day accordingly.

1. No daytime lane closures or flagging operations are planned on Folly Road or Camp Road.

2. Night construction will take place to alleviate impacts to day traffic and beach traffic.

3. Detours will not be directed through neighborhoods.

The project team will make every effort to minimize impacts from construction. Individuals are also urged to take caution when entering work zones. Work zone accidents occur every day. Please slow down, stay alert, obey the signs, keep your distance, and pay attention.
